What about a 24-hour 5-minute Passenger Loading Zone (PLZ) to accommodate both day-time pick-up and valet at night?

If not, I could inquire about the creation of some other type of zone.

Thanks, I'm trying to arrange another on-site meeting with LADOT **SOON** since there are so many moving parts on this one and interested folks in the area.

The standard Passenger Loading Zone (white zone) is 5 minutes only, often used for valet and active as drop-off/pick-up 24/7. That would mean that it could be used for drop-off and pick-up even during hours when the valet is not operational.

Dan, I think your instincts are good on this one. How bout if we get everyone in the room with DOT to agree to a plan – because we don't want signs to be changed and then someone I can help with contacts.

Hey guys I made a typo. Earlier emails asked for a mtg at 11am on the 16th. Subsequent emails show my typo in a date of the 26th. Can we solidify and confirm date of the 16th at 11am first and foremost? (sorry about the big fingers).

Thank You Dan. We would like to discuss modifying hours of meter operation exemption times during daytime hours. I believe some of the signs posted were in an effort to allow for daytime valet which no one on our block utilizes. Also and a possible change to the loading zone location and or size. This is something I will be discussing with our neighbor John (included here) to see what makes the most sense for the two of us collectively.

Let me know if you need anything else?

**To:** 'David Dickerson'  
**Cc:** errol roussel; Johnny Arakaki  
**Subject:** RE: Parking Help

David, I was out there last week and saw a problem that St. Felix is experiencing. Is this the same issue?

Copying Johnny on this.

Johnny pointed it out to me and I was planning to contact the council office. (Took these photos)

Let me see if I understand the ask:

Currently there is a zone out there where it says no parking, tow away after 6 p.m.

The tow trucks line up and grab those cars almost each day at 6 (because this catches people unaware)

There is no real reason why there should be no parking after 6 p.m.

This creates a bad taste in someone's mouth coming to patronize a Cahuenga business and finding their car towed (why not just ticketed)?

Perhaps this is a left-over from old valet situation?

I'm thinking we invite out the Council office and DOT Parking – and come to consensus on what makes sense now. And...I think towing cars is ridiculous. Just making money for Hollywood Tow and the city....

What am I missing?

Hello Kerry,

I have a convoluted parking sign situation in front of kitchen24 and want to figure out how I can move to allow for more meter parking in front of our store during daytime hours. It seems the signs are designed to allow for valet parking during the day but no one operates valet during the day. Can you give me some direction or advice as to how to go about making modifications to these signs? Is this something you can help me with?

I hope you are well.
